

- Weekly singing workshops available for your school
- Discover new songs, movement games & have fun
- Keep children creative, engaged & emotionally in touch through music

SING WITH ST PAUL'S

Singing together is a great way to develop community spirit, and these sessions will help children to feel connected to their friends, and give them chance to record a beautiful piece of music to share with their school communities and families as a musical gift.

We understand that delivering creative projects – and particularly singing – is more difficult at the moment. We have been leading in-school singing workshops for children with robust Covid-19 risk assessments in place. This project is also available as a digital offer if your school is not yet accommodating external visitors – we can teach your children in your classrooms remotely via your interactive whiteboard.

St Paul's Cathedral is offering **Sing with St Paul's** to bring the joy of singing together back to children in school.

- Offered as a package of weekly **sessions over 3-4 weeks** lasting **40 minutes** each
- Sessions will be packed with **movement, singing and fun** – and we can cover your favourite school hymns and songs, and accommodate musical requests

- Each session can accommodate **one class of children** within a bubble
- At the end of the project, you will film the children singing a piece of music to send to their families and school community as a musical gift
- Content links to your creative curriculum, particularly **RE** and **Music**

Cathedral staff are education professionals with Enhanced DBS clearance and regular experience of running weekly virtual choirs for London children from different backgrounds during the pandemic.

We want any school that wishes to take part to be able to do so.

As this is a part-funded project, the cost your school is **only £25 per session**, but if cost is an issue, we will be happy to hear from you.

If you would like any more information, please email musicoutreach@stpaulscathedral.org.uk
